To Whom It May Concern:

My family and I listen to a radio station that is like no other I have ever heard. It is a station that supports those in need, gives comfort to the weary and lets us know we are not alone. It is a station that goes out of the way to encourage listeners to get involved in their community and to help those around them. It is a radio station that does not air any obscene words nor does it promote promiscuity or drugs or violence like what is heard on most pop stations. This station helps me stay involved in my local community and be a participant in church. This station has this same affect on others in my community. I know this because it is talked about, plus we see the bumper stickers on cars. Not just friends, but people we don't know and people who are also obvious supporters of this same station. This station is called KLOVE and has an immeasurable impact on the listeners. If this station were displaced by an LPFM, my family as well as the other supporters would lose our daily encouragement from others who share our values. Not that everyone should, but families build communities, and neighborhoods. These create communities, cities, states and nations. Every negative impact has a ripple affect that travels to places we do not see, nor are we aware of. No other program I have heard has a consistent message of encouragement to everyone. Please allow this valuable service to continue for my family and my community. Thank you for taking this time to review my comments.
